Unfortunately, pedophilia remains rampant around the world. And the United States is central to this *raging open scab* that continues to “scar our children” and families within our society. The damage this segment of human trafficking has caused is unfathomable; and all you have to do, is a little investigation and you will come to know the depths of evil these *sick perverted individuals* that prey on our youth, suffer from! These are very sick human beings and sadly, rehabilitation is far and few among these types of predators.

The magnitude of this depravity in our culture is so broad in scope and width that it makes it very difficult to gauge the depth of infection this spiritual disease and dysphoria goes! At present, the United States has lost track of over 300,000 children that have come over the southern border (*ref. links below*). They have vanished! There is no way to track them down and there is no way to qualify them, when coming into the country. Many of them are without any documentation, or proof the adult that is with them, if there is one, is a legitimate parent and/or guardian.

However, ***the good news is***, arrests seem to be increasing. We are seeing an acceleration of pedophile networks being busted, as well as individual degenerates that are active participants in this segment of human trafficking, being taken down!

Here recently, a **former graphic designer for Disney and Pixar** has been convicted in France for sexually abusing children between 2012 thru 2021, with victims as young as 5 to 10 year old girls (*ref. link below*). Also, **former CEO, Mike Jeffries**, of “Abercrombie’s & Fitch’s” brand clothing outlets has been arrested on sex trafficking and prostitution charges, just last week (11-4-24). Jeffries was known for his “fetishization” of exploiting youthful innocence for his marketing strategy (*Ref. Link below*). This guys business model was predicated on his sexual attraction of using young people (boys & girls) for his own personal benefit; both in his business to make money from their modeling and for his personal sexual gratification.

Additionally, the following list below from the FBI is an illustration of more arrests that have occurred recently that is all related to sex trafficking and pedophilia. Some were from the *sealed indictments that have been accumulating over the years*. And we haven’t even begun to scratch the surface of the most recent P - Diddy case, or the Hunter Biden and Anthony Weiner lap tops; or the Epstein list of participants that Gislaine Maxwell has yet to disclose.

Clearly, pedophilia is a major “evil degenerate corruption” of character within too many Americans, both men and women!! And it has only served to debase and degrade our country’s hegemony. The magnitude of this defilement is shameful and should be an embarrassment to every American, in the United States; especially, when so much of it has been allowed to go on, while **“HIDING IN PLAIN SIGHT!”**

PLEASE NOTE:

Additionally, there is a 3 part “Pedophilia” video series posted on Rumble @ cogmedina (on page #6), for your viewing to help you understand just how embedded this shameful activity is within our American culture and the rest of the world!
