

A REVOLUTION OF COMMON SENSE HAS ARRIVED

by: Bill Watson / 1-24-25

What does that even mean—a “*Revolution of Common Sense*?” How can that statement even come close to meaning anything that is considered reasonable? The very thought of it would seem unreasonable since so many insist **common sense** is consistently used all the time.

But, how can that be when considering so many non-sensical government policies, irrational social normalizations, and “gaslighting” explanations, designed to influence the U.S. citizens to think certain things are a particular way, when in fact, they are nowhere near the way specific leaders, who know better, try to convince us otherwise. Like telling the American public, the borders are secure when in reality, the amount of illegal nationals that entered the country over the last four years are at record highs!! Clearly, some of the ideas and statements portrayed and policies enacted are seriously lacking COMMON SENSE and are simply foolishness!

For example, how can it be rational to allow a biological males compete in female sports? How is it we think that makes sense? Or a male, or female that “thinks” they are opposite of their biology and therefore, *because they “think” this*, they are allowed access into the bathrooms, locker rooms, share dormitories, and /or pajama parties with the opposite sex—how is that sensible?

How is it rational to allow unqualified individuals to serve in areas that risk the lives of innocent citizens just so quota’s can be achieved in the name of DEI? Why isn’t that considered nonsense? How does that even make sense? Think in terms of a doctor, a bus driver, pilot, or air traffic controller, a policeman, or paramedic; and you are dependent on them to provide you the service required—how does that assure your safety—let alone, is reasonable logic? *Who thinks like that?*

I got to thinking this week as I was listening to the incoming President of the USA at the inauguration, Donald Trump; and was listening to the definitions of some Executive Orders (E.O.) he intended to sign in the coming hours.

Admittedly, I had to shake my head in disbelief concerning some of them because you would think **COMMON SENSE** would tell you particular E.O’s shouldn’t be necessary—yet they are! This clearly only illustrates just how far our social order—our hegemony—has declined and devolved into a “*dark rabbit hole*” of illogical mental unsoundness. How can you allow stealing just under a \$1000.00 worth of items not be considered shop-lifting? Or provide sanctioned aid to illegal foreigners and then complain to the Federal Government you need more money to support them; but not cooperate with federal law-enforcement to round them up and send them back to their homeland?

It’s hard to fathom Harvard, Yale, Oxford, and West Point graduates—both men and women—would succumb to this kind of ridiculously absurd and foolish thinking; and to the point they would attempt to defend and support laws and policies in the “*Public Square*” for acceptance!

But, it appears, based on the first week of this new Administration, **Common Sense has returned!** Consider during this first week, hundreds of foreign nationals that are known criminals have been apprehended and being arranged for removal from the USA. The Mexican Cartels have been designated as a terrorist organization. An E.O. specifically recognizing, on

the Federal level, there are only 2 genders—male and female! Over 15,000 trans-gender military personnel have been released on medical leave. Tax laws are being reviewed for modification, or elimination, which includes trade tariff considerations with international trading partners from around the world. and the list goes on and on and on.

Yes, it would appear a revival of *Common Sense* has returned and the *United States is finally saying enough is enough!* But, the real questions are how far will these changes go and how will the American people handle what these changes may bring to light?

Interestingly enough, since there will be a new FBI Director and Attorney General handling the Department of Justice—it's certainly likely, investigations of particular subjects will occur. Suspicions of particular events surrounding questions about the 2020 Presidential Election; the pandemic and associated development of the mRNA vaccines—its side effects—and how people lost their jobs, or military positions, because they refused the “*mandated*” inoculation.

Or the J6ers and who was really behind that chaos; and *why were known FBI agents* mixed in the crowd and caught on camera exacerbating the situation? And what about Benghazi? And how about all the money—literally millions of dollars—the Biden family received over the years from business deals while he was in office, which included even their grand-children, and daughter-in-laws receiving payment from some of these companies? And we can't forget the nefarious and lascivious activity, “**PROVEN**” WITH PHOTOS AND VIDEO from the lap-tops of both Hunter Biden and Mr. Anthony Wiener—can we?

There are so many events and topics that **demand justice** (not vengeance), which all goes to illustrate just how terribly awful the United States has drifted from the “**RULE OF LAW**” and the **GOD OF ISRAEL!**

It would seem to appear God has raised up a Judge for our time to infuse the nation with some *Common Sense* as He did when Israel had no king. Othniel, Caleb's younger brother, was raised up to recover Israel from its sinful ways when it was oppressed, and Israel enjoyed 40 years of rest. Ehud was another “*Judge*” that over-came the oppression and influence of the Moabites, and Israel enjoyed rest for 80 years. And we could include Deborah and Gideon and some other “*Judges*” God raised up to emancipate Israel of their sins and oppression from their enemies.

“**Could it be**” (*I'm just asking*), we are in the midst—in real time—of a *modern-day Judge* that God has raise up in these latter days to recover modern-day Israel (Manasseh) from the oppression that has infiltrated the land with *Marxists ideas and globalist ideologies*? Time will tell as we proceed and view the results of the efforts of this new Administration and what the effects will be from the **POLICIES it conducts**.

But, in the meantime, take opportunity to download our booklet that is titled: **A World In Transition—(A Prophetic Seasonal Change)**. It will help you to understand and bring to light some of what remains out ahead for the United States, from the Voices of the Prophets! These *Prophets are screaming with insight* to events of the latter days and specifically the Birth-right recipient nations that have been so richly blessed by God. Keep in mind, it is a **warning message!**
