Sealed Indictments Are Beginning To Open

For those of you that may not know about this fact, there are now over 450,000 Sealed Indictments, just in the USA. I remember some years ago in a sermon I mentioned there were, I think at that time, over 100,000 Sealed Indictments. But, interestingly and shockingly, the list has now grown in excess of over 450,000 Sealed Indictments! It's unbelievable!!

These Sealed Indictments have been opening up on a regular basis over the last few years. Many have been opened and are now moving ahead in the form of court hearings and actual charges being brought against those named in the Indictments. Keep in mind also, there can be multiple individuals that can be included in any Indictment. So, the current number of Sealed Indictments is not necessarily representative of the actual amount of individuals they represent.

For instance, in the P. Diddy sealed Indictment (*see link below for complete indictment*) that was recently opened and executed, resulting in P. Diddy's arrest; it included a Racketeering charge among the sex trafficking, prostitution, and kidnapping charges. However, this Racketeering charged disclosed he had an "Enterprise" that was designed and managed by a *staff of people and employees* to facilitate and arrange for the travel of victims and sex workers, hotel rooms, stocked with drugs, baby oil, and an array of lubricants and extra linens, guns and ammo. These associates of P. Diddy's are also going to be investigated as ancillary individuals that participated, conspired, and may be culpable to a degree, of helping to plan and conduct this abusively criminal business enterprise.

The "*known fact*" that P.Diddy video'd his visitors, victims, and friends engaging in sex acts, sometimes without their knowledge, gave him leverage to exert control over certain individuals for selfish-gain and his own protection. He also used private recordings that he made during his "Freak- Offs" parties as collateral to ensure obedience and /or silence from his victims. His arrest has resulted in dozens of victims and witnesses coming forward, providing detailed and credible and corroborated information that confirm many of P.Diddy's actions are indeed, real and seriously unconscionable!

In the recent days after his arrest and incarceration, law-enforcement has conducted interview after interview, about 50 or so since his capture, and the numbers are growing along with a major amount of resignations of important and well known people throughout the entertainment, business, finance, and political communities. (*Ref. Blog, dated:9-20-24*)

So, in the coming weeks there will be more developments about "who's, who" with the P.Diddy scandal; and time will tell as to just what kind of people these people are, who attended his "freak offs, " and are caught "*embarrassingly compromised,*" by means of the video they may be on! Stay tuned, we should find out shortly as to who was involved with victimizing so many of those innocently, and not so innocently, attending those parties!
