

**AN “UNCOMFORTABLE TRUTH” IS
COMING TO FRUITION
by: Bill Watson / 1-20-25

It's been said, we should learn by our mistakes and if we don't, then those who ignore the lessons of those past mistakes *are destined to repeat the same mistake*. This is exactly what happened some 4 years ago when the mRNA vaccine (Covid -19) was “mandated” in some cases and distributed to humanity on a global scale! Let me explain.

Unfortunately, the *Nuremberg legal Code* was “*ignored*,” which established the principle of “Informed Consent.” This Code was a direct result of the Nuremberg Military Tribunal, on August 19, 1947. This “*CODIFIED* principle” was established in the **Doctors Trial** of the *USA vs Karl Brandt* after WW-2. It was outlined in “Trials of War Criminals” at Nuremberg’s “Military Tribunal” under the Control Council Law, #10, vol 2, pp181-183.

This rule was established because the *Nazi doctors* were experimenting with human beings contrary to the enshrined *Hippocratic Oath* and subsequent codes that establish the premise of Medical Ethics. And furthermore, by extension, bioscientist’s research **MUST ALWAYS** put the needs and welfare of human subjects first. Sadly, until the Nuremberg “Doctors Trial,” these specific human rights were not codified for biomedical research either.

Therefore, “gain of Function” research was uninhibited by any moral, and/or ethical restraint—and many human beings were used as “lab rats” for very horrific experiments by men like Karl Brandt, Hitler’s personal physician, or the infamous and most notorious offender, Josef Mengele of Auschwitz, who was never brought to trial (**Ref: link #1 below for more detail**).

Fast forward to December 10, 2020. This is the date the FDA provided “Emergency use Authorization” (EUA) to Pfizer-BioNTech—4 days later mass vaccinations began—*ignoring the lesson learned from WW- 2, about the code, regarding Informed Consent!*

Moderna was granted EUA approval on December 17, 2020. And shortly thereafter, J & J’s vaccine was granted approval on February 27th, 2021 [*However, only to be pulled later from distribution, due to discovering it was contributing to **increased risks of blood clots**.*]. Finally on April 19, 2021 all U.S. states opened vaccine eligibility to all citizens, aged 16 and over for mass immunization—100 million doses were distributed in the first 100 days of the Biden Administration, after taking office (**Ref: link #2 Wikipedia**). This has resulted in 270 million Americans (81%) that have received at least 1 jab and about 230 million Americans (70%) that are considered fully inoculated with boosters and multiple jabs.

But here’s the “rub”—the dilemma we are faced with—how can you have “Informed Consent” if the public wasn’t told an EUA is nothing more than a “*trial*” and is **not actually “proved”** to be safe, secure, and healthy for human consumption; which then, translates to mean we are the guinea pigs for this trial!!

So, who can make a sensible, or reasonable “*Informed Consent*” decision, when the short-term effects of the “**jab**” neither *STOPS* the contagion’s ability to contract and/or transmit the virus; and any long-term DATA doesn’t exist? As a matter of fact, what is now emerging, is news about side-effects that even “Fact Checkers” have admitted exist, but they “**mask**” and **attempt to mitigate the side-effects with words like**, “rare cases, minority harm risks, rare autoimmune neurological conditions, or EXTREMELY rare adverse event !!” (**Ref: link #3**).

The “**uncomfortable truth coming to fruition**” is some of these vaccine *side effects* are now becoming recognized as legitimate *growing concerns*, as large numbers of individuals are coming forward, disclosing their personal suffering and health tragedies from the side-effects, while statistics continue to increase and accelerate in amounts and scope, as questionable technical information, quality control methods, and *suspected* governmental and pharmaceutical collusion comes “*into the light*.” **Ref: links #4 & #5)**

Clearly, we know this is a controversial topic and understand some of us have gone ahead and perhaps, conceded to taking this mRNA vaccine. However, that doesn’t dismiss ***the need for all of us, vaccinated, or not,*** to assess and seriously evaluate for the future, the **REAL risks** surrounding the mRNA vaccine, when considering ourselves, mates, children and friends. Keep in mind, “Informed Consent” is your constitutional right—it has been since WW 2 ended—and it is codified!

All of us have the right and freedom to select, or choose, what we determine to be in our best interests for ourselves and loved ones. It isn’t right, nor is it appropriate, or ethical, to be coerced, forced, or mandated “*with threats of loss*” to do something against your conscious. Remember, what is not of faith is sin (Rom. 14:23).

So, let’s keep in mind, there are many pressures surrounding us in our world today and there is a movement to *collectively consolidate* the world’s nations and population—it’s called **globalism!** The kind of activity that became the method of choice to immunize the world with a common vaccine is the same “principle,” *perhaps a preview*, of what will be used to “**MARK**” everyone, so we can function within our social environment and participate in the commerce of society (Rev. 13:16-18). The technology is now upon us for this to happen and unfortunately, probably sooner than later.

So, be vigilant and retain a *healthy degree of suspicion* of what is developing around us for the sake of yourself and loved ones—why? Because there is coming a time when we will all have to exercise the bravery, boldness and courage to “pick a lane”—push back, and make a **decisive decision**. Hopefully, it will be to *resist this MARK*, thereby, assuring our salvation (Rev. 14:9-11). Keep in mind: *it’s your body, therefore, it is your choice—predicated on the code of “informed consent!”*

I hope you will take the time to review these links for a more insightful understanding about what is being obscured and obfuscated. There are a lot of credible individuals on these links that express *legitimate concerns*, **substantiated with FACTS**, about this mRNA vaccine; and it merits our attention because of what these professionals know, have experienced, and what they explain and warn us about in these links!
